Diesel Particulate Filter Cleaner

265ml & 265ml No

PRODUCT DESCRIPTION

10K Boost Diesel Particulate Filter Cleaner is an organo-metallic diesel fuel additive that ensures complete & rapid regeneration of the diesel particulate filter. 10K Boost DPF Cleaner lowers the ignition temperature of soot collected in the diesel particulate filter and optimizes periodic combustion of accumulated soot, a process known as filter regeneration. Diesel Particulate Filter Cleaner also reduces particulate emissions and extends lifetime of particulate filter.

PRODUCT BENEFITS

* Ensures complete and rapid diesel particulate filter regeneration
* Reduces ignition temperature of trapped soot ensuring extraordinary combustion at temperatures typically encountered during normal engine operation
* Prevents performance loss caused by clogged diesel particulate filters and incomplete combustion of soot
* Reduces particulate emission assisting in meeting strict legislation and emission limits
* Extends lifetime of the expensive diesel particulate filter
* Most economic way of soot reduction without any changes to the fuel system
* Regeneration of diesel particulate filters is 5-10 times faster and more complete than when using a catalyst coated diesel particulate filter.
* No secondary emissions.
* Can be used for all diesel engines with standard or retrofitted diesel particulate filter
