

# Granville Tyre Aid

500ml Aero

## PRODUCT DESCRIPTION

Granville Tyre Aid is a tyre repair in a can. It requires no tools and can repair a puncture in the tyre without having to remove it from the vehicle utilising special rubber compounds that find the hole and seal it. The gas in the can inflates the tyre to allow Tyre Aid to seal. Tyre Aid is a temporary repair designed to get you home. Always re-check the tyre pressure once sealed and re-inflate as required.

Please note:

Granville Tyre Aid is not permanent repair, damaged tyres should be inspected by a trained technician and either be repaired or replaced. Not suitable for large cuts & tears.

Store out of direct sunlight and below 50°C

\* Image for illustrative purposes only.

## PRODUCT BENEFITS

- \* Repairs punctures
- \* Enables you to get home
- \* Suitable for cars, caravans, 4x4's, MPV's and trailers

## DIRECTIONS FOR USE

- 1.Shake can well before use.
- 2.Remove dust cap from the tyre and attach the tube to the air valve.
- 3.Activate the can and allow it to empty completely.
- 4.Drive the car directly home or to a tyre repairer where practical.
- 5.DO NOT exceed 40mph.
- 6.Drive the car slowly for 20 minutes to allow the foam to find the puncture and seal it.

Please note:

Granville Tyre Aid is not permanent repair, damaged tyres should be inspected by a trained technician and either be repaired or replaced.

Store out of direct sunlight and below 50°C
